We know it's summer and holidays are on our minds, but we also know now isn't the time to take your foot off the pedal with your business. Last month we talked to you about releasing cash back into your business in these uncertain and ever-changing times. And we're delighted to be able to share a few deals we've arranged and completed on for customers how have done exactly that.

A £20,000 loan for a landscaping business. They're recently secured a new contract but needed a cash injection to employ the staff required to deliver the work ahead of being paid.

A £150,000 consolidation of existing debt for a farming contractor to reduce their monthly payments.

A £67,500 refinance deal of unencumbered assets to release cash to invest into their business and, more specifically, their equipment.

A £25,000 working capital loan for a supply chain fulfilment company as they continue to grow their business through the traditionally quieter summer months.

We've said it before, and you know we'll say it again, but please do get in touch if you think we might be able to help you.

Give us a call today; we'd love to hear from you.
