## **Do you know the benefits of refinancing?**

Business owners are realising the **benefits that refinancing can bring** their business!

- Refinancing enables you to take control of your costs by fixed monthly payments.
- It offers a fast and cost-effective way of raising finance for any business use.
- It supports a useful way of growing your business.
- It can even be used to raise cash for tax bills or insurance.

We have supported a range of customers who have benefitted by releasing equity from existing assets, giving them much needed cash to enable plans for growth, to ease financial debt or support deposit payments for new equipment or vehicles.

Over the last few months, we've supported a customer with a £20,000 deposit payment for the purchase of machinery from abroad; we've helped another customer release £32,000 from a fleet of vehicles; and we've refinanced £400,000 of plant machinery for an expanding hire company as they push forward with their development plans.

If any of this sounds like it could be of interest, then hit reply and we'll give you a call to chat more.

Best Wishes

**BEN & PAUL**

The image shows the Acorn Commercial Finance logo on the left, featuring the word "Acorn" in large white letters with "Commercial Finance" in smaller blue letters above it, and a blue acorn icon to the right. To the right of the logo is a list of services in two columns, and further right is the company's website and phone number.

- asset finance
- commercial loans
- bridging loans
- invoice finance
- business loans
- acquisitions
- MBOs
- cash flow
