Asset Finance might be just what you need

Last week we spoke about refinancing and the opportunity it gives you to consolidate monthly payments and release cash into the business while taking advantage of a fixed interest rate.

Where refinancing can be a great way of assisting with cashflow, many businesses are also growing or staying ahead of technology changes. What these businesses need is new or used equipment – be that machinery, vehicles, IT items. This can then be used to support the growth of the business.

Asset finance offers you the opportunity to buy what your business needs now and make monthly payments instead of needing the full cost of the product up front.

Over the last few months, we've helped a freight business finance two used trailers, a security firm finance their air conditioning system and a packaging company finance their new office furniture to name a few.

If you're ready for a chat about any of the above, then drop us an email or give us a call 0345 565 2603.

Best Wishes
BEN & PAUL

The footer features a dark blue banner with the Acorn Commercial Finance logo on the left, a list of services in the center, and contact information on the right. The logo consists of the word 'Acorn' in large white letters with 'Commercial Finance' in smaller blue letters above it, and a blue acorn icon to the right. The services are listed in two columns: 'asset finance', 'commercial loans', 'bridging loans', and 'invoice finance' in the first column; 'business loans', 'acquisitions', 'MBOs', and 'cash flow' in the second. The contact information includes the website 'www.acorncf.com' and the phone number '0345 565 2603'.
