Invoice Finance can release funds for you

We've recently talked to you about refinancing assets, including property, to release cash into your business. Invoice Finance facility arrangements can also help you to keep the money in your business.

Invoice Finance is all about using unpaid invoices as security for money to be lent to your business.

Funding from Invoice Finance is flexible, grows in line with your business and helps reduce the risk of late payments or defaults to you. Invoice Finance has changed a lot over the last few years; it's probably not what you might think it is.

We've successfully secured a £1.5 million invoice finance facility for a transportation company with a fleet of 75 vehicles. This flexibility has given them the opportunity to continue to expand the business.

If you're ready for a chat about the above or want to discuss any business finance needs then drop us an email or give us a call on 0345 565 2603.

Best Wishes
BEN & PAUL
