Refinance might unlock the cash your business needs

We're continuing to receive enquiries for refinancing as businesses recognise that cash is king and they want to release money back in to the business.

Refinancing enables you to take advantage of a fixed rate, meaning there will be no change to the amount you pay each month for the term of the agreement.

We've a number of customers who have benefitted from releasing equity out of existing assets which has given them the cash they need to drive forward with business growth plans, purchase new equipment and machinery, increase their staff numbers and not get left behind for having money tied up. You can also refinance to consolidate monthly payments and reduce your outgoings or refinance to release money to assist with cashflow.

In the last couple of months, we've refinanced £20,000 worth of machinery from overseas for a manufacturing business, agreed a refinance of a £32,000 fleet vehicle to release cash for much needed funds into their account to assist with cashflow and completed on a £400,000 refinance of plant machinery for an expanding hire company to help them with their development plans.

If you're interested in the above then hit reply to this and we'll give you a call or if you can't wait ring us now on 0345 565 2603.

Best Wishes
BEN & PAUL

The footer features a dark blue banner with the Acorn Commercial Finance logo on the left, which includes the word 'Acorn' in large white letters and 'Commercial Finance' in smaller blue letters above it, accompanied by a blue acorn icon. To the right of the logo is a list of services in white text, and further right is the company's website and phone number.

- asset finance
- commercial loans
- bridging loans
